

Double Tank Under the Sink System

Double tanks to provide tasty, healthy drinking and cooking water at the kitchen sink. We **remove fluoride** down to **non-detectable levels**, plus "**polish**" the water for the highest quality water without disturbing the

wholesome minerals that make water healthy. Note that these 2 tanks are **9.25 inches in diameter and 21 inches tall and they weigh 50 pounds**. Cost **\$1549.00 + 65.00 S/H (Florida Residents add FL Sales Tax)**. **Installation fee is additional.**

Note: Our under the sink system removes fluoride, chloramines, chlorine, heavy metals, VOCs and chlorine by-products. It includes a 1 micron pre-filter, a high quality faucet and other necessary parts. We will remove Fluoride to **non-detectable levels**, not **only reducing** the **fluoride** like other filters do. Our under the sink filter removes the toxins **without** at the same time removing all of the **good alkaline minerals**, such as calcium and magnesium. We recommend that you do a water analysis that will show that our integrity. This eliminates all opinions and uncertainties. The result? Water like a mountain spring™!
